

i3PROJECTOR 2802W

i3PROJECTOR 2802W is a 3100-lumen ultra short throw projector that packs a multitude of features while delivering an extremely short throw distance for education and corporate applications. For a complete interactive projector solution, see the 2802Wi-Plus interactive system. With its ability to be mounted to the wall directly above the screen on which it projects, this model helps eliminate the shadows and glare typically found with standard projection systems. The 2802W includes a powerful 10W speaker, and its input panel includes dual VGA, HDMI and a microphone input to amplify the presenter's voice.
